

ANSE GA, October 2020

National Report from The Supervisors' network Nosco in Norway

Arild Stensland, President and Gunn Brigitte Danielsen, Delegate and Vice President

We have an enthusiastic board sharing responsibility and visions for Nosco.
Some of our visions:

- To become a nationally acknowledged supervision organisation attractive for supervisors and cooperation partners at universities.
- To develop and organise attractive workshops, development groups for supervisors and certification that are meeting their needs.
- To deliver and maintain quality in all our routines and activities, as well as having and maintaining a solid economy.

Development activities after ANSE GA 2018:

1. Development of new and updated Web Sites (2020)
2. Involving members and cooperation partners more in activities
3. Offering high quality seminars and workshops
4. Further development of Nosco group on Facebook (2020)
5. Meeting needs for digital arenas as facing corona (2020)
6. Recruitment of new personal members and cooperation partners

Nosco is still in need of further development. However – we are proud to state that we now actually are living and developing “a new spring”:

- Since GA 2018 the number of members increased nicely We expect further growth.
- We have development contracts with two Norwegian universities so far.
- We are increasing the number of members present in different regions in Norway
- We offer certification in Supervision using our own logo, as well as ANSE logo: We offer to different certifications: Level 1 is meeting minimum demands for practicing of Supervision in Norway. Level 2 is in accordance with ANSE demands for Supervision education. Both certificates have limited durability (3 years); as we emphasize LLL.
